## Reporting Explanations

### U.S. Manufacturers

#### Sales

*(The geographic boundaries used in reporting sales conform to the U.S. Bureau of Census Divisions.)*

Includes both domestic and export, and are reported by geographic division based on final destination of sale, rather than point of production or origin. All tonnages sold are reported in short tons, ignoring fractions, and in the case of bagged goods, they include the weight of additives or other materials used in the final product sold.

Gypsum products or materials transferred from one gypsum plant to another gypsum plant, in the same company, are reported by the selling plant to the end user unless the products cross an international border. Gypsum products, whether sold or transferred, for use in the manufacture of non-gypsum products (such as cement) are included. Sales of board are reported on a surface area basis in square feet, regardless of thickness.

#### Explanatory Information - General

<b>Uncalcined</b>	- includes sales of purchased material, but excludes sales to other gypsum producers
<b>Calcined</b>	- includes all sales of produced products; excludes sales of purchased finished products, as they are reported by the manufacturer. Excludes additives.
<b>Synthetic Gypsum</b>	- a by-product that is chemically manufactured, as opposed to naturally occurring ore.
<b>Regular Plasters</b>	- includes mill-mixed, spray fireproofing, and shipments to other mixing plants.
<b>Veneer Plasters</b>	- basecoat and finish plasters and all other gypsum prepared finishes.

#### Explanatory Information - Board Products

<b>Veneer Base</b>	- specialty board for application of thin-coat veneer plaster; includes regular and type X veneer base.
<b>Gypsum Sheathing</b>	- all single thickness sheathing including type X board, with or without water-resistant treatment.
<b>Regular Gypsum Board</b>	- all thickness regular core board, form board, backer board, and specialty board (such as fiber gypsum board). Laminated products based on area of component parts, not finished product.
<b>Type X Gypsum Board</b>	- same as "Regular Gypsum Board" except all-type X core; excludes all regular core, sheathing, pre-decorated, veneer base and water/moisture resistant board.
<b>Liner Panel</b>	-2-foot wide by 3/4 or 1 inch panel designed for use in shaftwall or townhouse separation wall system.
<b>Pre-decorated Wallboard</b>	- all products on which a decorative surface is factory applied, laminated, or adhered to base products regardless of core, thickness, or type; excludes all 5/16" pre-decorated products and foil back, unless sold for decorative purpose.
<b>5/16" Mobile Home Board</b>	- includes all 5/16" board, regardless of pre-decorated or plain surface.
<b>Water or Moisture Resistant Gypsum Board</b>	- all types, except gypsum sheathing.

**Note: Liner Panel added in 2009.**
